

# **MASENO JOURNAL GUIDELINE TO AUTHORS**

## Submission of Papers

Submission of Papers and Manuscripts for Maseno Journal should be done through online submission as the preferred method of submission. It is only in exceptional cases where the authors have justified challenges that the author can be allowed to submit by email at [journals@maseno.ac.ke](mailto:journals@maseno.ac.ke). Submission should follow the following outline: on a separate page, give the main title, full name(s) of authors and institutional affiliation(s) of author(s), including address for correspondence, (**approximately 50 words**). The content page should begin with an abstract, summarizing the thesis of the article in not more than **150 words**. The main title should clearly reflect the content of the article and should be no longer than **20 words**. Provide headings and subheadings to signify the structure of your article. Main **headings should be in bold type and subheadings italicized and in lower case letters**. It is the author's responsibility to ensure that manuscripts are written in clear and comprehensible English. Authors whose mother tongue is not English language are strongly advised to have their manuscripts checked for English articulation prior to submission. Submission of a manuscript implies that it has not been published previously (except in the form of an abstract or as part of a published lecture or academic thesis); that it is not under consideration for publication elsewhere; that its publication is approved by all authors and tacitly or explicitly by the responsible authorities where the work was carried out, and that, if accepted, it will not be published elsewhere in the same form, in English or in any other language, without the written consent of the Publisher. Limit the number of notes to those that are essential, and keep them as brief as possible. Notes should be collected at the

end of the text, not at the foot of the page. Do not use the automatic footnote or endnote facility

Responsibility for opinion expressed and for accuracy of facts published in articles and reviews rests solely with individual author(s). Receipt of manuscript will be acknowledged within **2 weeks**.

## Types of Contributions

Contributions shall be original research papers; review papers; rapid communications; short communications; viewpoints; letters to the Editor; book reviews.

**1. Original Research articles:** original full-length research papers that have not been published previously, except in a preliminary form, and should not exceed **10,000 words** (including allowance for no more than 6 tables and illustrations).

**2. Review papers:** review papers will be accepted in areas of topical interest, focusing on literature published over the previous five years, and should not exceed **10,000 words** (including allowance for no more than 6 tables and illustrations).

**3. Short communications:** short communications of up to **1,200 words**, describing work that may be of a preliminary nature, but which merits immediate publication. Authors may also submit viewpoints of about **1,200 words** on any subject covered by the aims and scope.

**4. Letters to the Editor:** letters are published on matters of topical interest.

**5. Book reviews:** book reviews take up to **800 words** covering feature commentary on new books, films, exhibitions, performances, mobile applications, podcasts, and other media that are likely to be of broad interest to our readership. Authors should contact the

Editor-in-Chief before beginning to prepare book or media review. Authors must justify to the Editor-in-Chief how the work would be of interest to Science readers, and their capacities to write the review.

### **Manuscript Preparation General:**

**Format:** Manuscripts must be 1.5-spaced, Time Roman font size 12 with 3cm margins on both sides of A4 page.

**Abstracts:** Each paper should have an abstract of 100-150 words, reporting concisely on the purpose and results of the paper.

**Text:** Follow this order when typing manuscripts: **Title page** (Project title, Authors, Affiliations, Contacts, Abstract, and Keywords), **Main text**, Acknowledgements, References, Figure Captions, Tables and Appendix. Do not import the Figures or Tables into your text. The corresponding author should be identified with an asterisk and footnote. All other footnotes (except for table footnotes) should be identified with superscript Arabic numbers. The title of the paper should unambiguously reflect its contents. Where the title exceeds 70 characters a suggestion for an abbreviated running title should be given.

**Units:** The SI system should be used for all scientific and laboratory data; if, in certain instances, it is necessary to quote other units, these should be added in parentheses. Temperatures should be given in degrees Celsius. The unit 'billion' (10<sup>9</sup> in America, 10<sup>12</sup> in Europe) is ambiguous and should not be used. Use metric measurements (or state the equivalent). Similarly, give a US dollar equivalent of other currencies. Symbols: Abbreviations for units should follow the suggestions of the British Standards publication BS 1991. The full stop should not be included in abbreviations, e.g. m (not m.), ppm (not p.p.m.), % and '/' should be used in preference to 'per cent' and 'per'. Where abbreviations are likely

to cause ambiguity or may not be readily understood by an international readership, units should be put in full. Current recognized (IUPAC) chemical nomenclature should be used, although commonly accepted trivial names may be used where there is no risk of ambiguity. The use of proprietary names should be avoided. Papers essentially of an advertising nature will not be accepted.

**References:** All publications cited in the text should be presented in a list of references following the text of the manuscript. No more than 30 references should be cited in your manuscript. In the text refer to the author's name (without initials) and year of publication (e.g. "Oketch-Rabah, Mwangi, Listergen and Mberu (2000) studied the effects..." or "...similar to values reported by others (Getenga, Jondiko & Wandiga, 2000)..."). For **2-6 authors** all, authors are to be listed at first citation. At subsequent citations use first author et al. When there are more than **6 authors**, first author et al. should be used throughout the text. The list of references should be arranged alphabetically by authors' surnames and should be as full as possible, listing all authors, the full title of articles and journals, publisher and year. The manuscript should be carefully checked to ensure that the spelling of authors' names and dates are exactly the same in the text as in the reference list.

References should be given in the following form:

Ahmed, I. A., & Robinson, R. K. (1999). The ability of date extracts to support the production of aflatoxins. *Food Chemistry*, 66(3), 307-312.

Marasas, W. F. O. (1996). Fumonisin: History, worldwide occurrence and impact. In L. S. Jackson, J. W. DeVries, & L. B. Bullerman, eds. *Fumonisin in food, advances in experimental medicine and biology*, vol. 392 (pp. 1-18). New York: Plenum Press.

Massart, D. L., & Kauffmann, L. (1983). Interpretation of analytical data by use of cluster analysis. New York: Wiley. Noel, S., & Collin, S. (1995). Trans-2-nonenal degradation products during mashing. In Proceedings of the 25th European brewery convention congress (pp. 483-490). Oxford: IRL Press.

**Citing and listing of web references:** As a minimum, the full URL should be given. Any further information, if known (author names, dates, reference to a source publication, etc.), should also be given. Web references can be listed separately (e.g., after the reference list) under a different heading if desired, or can be included in the reference list.

### **Illustrations**

Photographs, charts and diagrams are all to be referred to as "Figure(s)" and should be numbered consecutively in the order to which they are referred. They should accompany the manuscript, but should not be included within the text. All illustrations should be clearly marked with the figure number and the author's name. All figures are to have a caption. Captions should be supplied on a separate sheet. Tables should be numbered consecutively and given a suitable caption and each table typed on a separate sheet. Footnotes to tables should be typed below the table and should be referred to by superscript lowercase letters. No vertical rules should be used.

### **Preparation of electronic illustrations**

Submitting your artwork in an electronic format helps us to produce your work to the best possible standards, ensuring accuracy, clarity and a high level of detail. Authors must ensure that submitted artwork is camera ready.

### **Proofs**

When your manuscript is received at the Publisher it is considered to be in its final form. Proofs are not to be regarded as

'drafts'. One set of page proofs in PDF format will be sent by email to the corresponding author, to be checked for typesetting/editing. No changes in, or additions to, the accepted (and subsequently edited) manuscript will be allowed at this stage. Proofreading is solely the author(s) responsibility. A form with queries from the copy editor may accompany your proofs. Please answer all queries and make any corrections or additions required. The Publisher reserves the right to proceed with publication if corrections are not communicated. Return corrections within **14 working days** of receipt of the proofs. Should there be no corrections, please confirm this. Maseno University Journal will do everything possible to get your article corrected and published as quickly and accurately as possible presumably, with the support of the author. Only one set of corrections will be accepted. The authors should therefore ensure that they make all the recommended corrections and send back in one complete communication. This is important because subsequent corrections will not be possible.

### **Offprints**

The editors reserve the right to copyedit and proof all articles accepted for publication. Acceptance of the article will imply assignment of copyright by its author(s) to Maseno Journal. Authors receive a digital complimentary copy of the issue.

### **Copyright**

Upon acceptance of an article, authors will be asked to transfer copyright by submitting a signed copyright form. This transfer will ensure the widest possible dissemination of information. A letter will be sent to the corresponding author confirming receipt of the manuscript. A form facilitating transfer of copyright will be provided. If excerpts from other

copyrighted works are included, the author(s) must obtain written permission from the copyright owners and credit the source(s) in the article.

### **Conflict of Interest**

All authors complete the conflict of interest declaration and license forms.

### **Anti-plagiarism Checks**

All submitted papers will be subjected to anti- plagiarism check before sending to the reviewers. Papers which will not meet the 15% similarity threshold will be rejected.

### **Article Publication Charges**

There is no charge for the submission of the paper but the author (s) of each accepted paper is required to pay the article processing charge of **Kshs 4000 or USD 50 per paper**. More detailed payment instructions are available at <https://journals.maseno.ac.ke>.
